Objective

The Go Around Southeast Asia tour aims to connect projects to local blockchain communities in South East Asia. With the current bear market condition, it is very important for project to connect directly to the ground and be face-to-face with the local audience.

In the roadshow, projects will be able to connect with :

- Local Blockchain Investors & VCs from each country
- Local Crypto Exchanges from each country
- Local Blockchain media & mainstream media from each country
- Local Blockchain projects to network and possibly form partnerships
- Local Blockchain community, enthusiast & individual investor from each country

Agenda

Go Around Southeast Asia Tour aims to bridge overseas Projects, Exchanges & Capitals to the local market by introducing new innovation into South East Asia and also gain local insights on the Blockchain scene in each county presented by local experts.

- **Projects Presentation**
- **Local Key Figure in Blockchain Presentation**

Panel discussion with Local Key Figure

- Local Venture Capital
- Local Exchange
- Local University Professors
- Local Blockchain Association
- Local KOL/ Influencers
